FABLAB &
DIGITAL FABRICATION FACILITIES
By Université Paris-Saclay

▌Programme FabAcademy 20**19**
OBLIGATOIRE

> TUTORIALS (60H) **& COURS-TP** (140H) **:**

Jan 17 :	Principles and practices, presentations, introductions
Jan. 24:	Project management
Jan. 31:	Computer-aided design
Feb. 07:	Computer-controlled cutting
Feb. 14:	electronics production
Feb. 21:	3D scanning and printing
Feb. 28:	Electronics design
Mar. 07:	Computer-controlled machining
Mar. 14:	Embedded programming
Mar. 21:	Molding and casting
April 04:	Input devices
April 11:	Output devices
April 18:	Interface and application programming
April 25:	Networking and communications
May 02:	Mechanical design
May 09:	Machine design
May 16:	Wildcard week
May 23:	Applications and implications
May 30:	Invention, intellectual property, and income
June 11:	Project development
